Profile

Detail oriented and objective driven software engineer, Passion for solving complex problems with a practical approach, Inspired by all the technological innovation that shapes the world around us, and want to contribute in a meaningful way.

Languages

JavaScript, HTML5, CSS, Python

Proficiencies

Front-End, Back-End & Full-Stack Development, Node.js, ReactJS, Express, Bootstrap, FlexBox, MongoDB, CLI, AWS, Database Architecture, Computer Architecture, Problem Solving, Troubleshooting, Graphic Design, Technical Writing, Customer Service, Sales, Logistics, Data Entry, Purchasing

Projects

Characterboxd — <https://github.com/RoryV91/Characterboxd>

Collaborated with two colleagues to create a responsive React web app for reviewing movies/tv shows. I build the backend and handled API integration.

NadeJump API — https://github.com/RoryV91/HaloCE_FanSite

Built a full-stack application with CRUD functionality using JavaScript, Node.js, Express, and MongoDB. Implemented user sign up and log in with encrypted passwords using BCrypt.

Major — <https://github.com/RoryV91/Major>

Built a full-stack issue tracker application with CRUD functionality using MERN stack. I implemented authentication for tailored access to the website with different permission levels.

Professional Experience

Siban Holdings, Inc./Nabis (2020-2021)

- Planned logistical delivery routes across California and managed client relationships with 30+ brands and 100+ retailers.

Whole Foods Market, Gilman (2018-2020)

- Wrote orders for multiple vendors, received and merchandized products, and supervised a team of 10-12 people.

Cole Hardware, Rockridge Location (2016-2018)

- Shipped and received orders, performed data entry, and corrected inventory data.

Acumen Building Enterprise, Inc., Oakland, CA (2010-2016)

- Assembled contactless interface devices, performed product development and system testing, and provided general IT support.

Education

General Assembly, remote — Software Engineering Immersive (2022-2023)

Heald College, Concord CA — AAS Business Administration (2014), AA Business Administration (2015)

Certificates

MongoDB — Developer (2023)

MongoDB — Database Administrator (2023)

AWS — Cloud Practitioner (2023)
